New Station in Chicago.

Commencing to-day the Baltimore & Ohio railroad company will run its passenger trains into the Grand Central passenger station, corner of Harrison street and Fifth avenue, in Chicago. This is the finest and most complete railway station in America, and the new arrangement is a great thing for the railway company.

To Hunt Street Cars.

At the barn of the electric street railway company on Forty-second street, an experiment is being made with an electrical heater, which is claimed by the patentees to be a success. Four heaters are put in one car. It is hoped by passengers that some method of heating the cars will be adopted on the line.

Home from Nova Scotia.

Mr. Jacob Dick, a glassworker, well known in this vicinity, returned from New Glasgow, Nova Scotia, where he gave up his job in a glass works because there was too much sand in the glass. The glass was hard to work on this account and the wages were necessarily low. It costs ten per cent to send money from New Glasgow to this country.

Transfers Recorded.

Clerk Hook yesterday admitted to record three deeds of trust and transfers of real estate as follows:

November 28, by Mary A., widow of John Henderson, to the Central Glass Company, for \$5, all her claim on 2 acres, 2 rods and 36 perches and lot 242 of the East Wheeling Company's addition.

November 25, by Charles Schmidt, Frederick Happy and Henry Bieberson and their wives to Charles M. Gray, for \$190, lot 49 in the Belvedere addition.

Real Estate is Still up.

The sale of the real estate of the Busbey estate was continued yesterday by Auctioneer Haller, the piece lying on Chapline street, opposite the court house, and having a frontage of forty feet, being sold. It was bought by two of the heirs of the estate, George and Charles Busbey, for \$9,140, which is at the rate of \$22 50 a front foot, a larger price than it was generally expected to bring. The ground is vacant. The Masonic Temple Association is understood to have its eye on the lot, but the price was considered too high for it. It is reported that the Messrs. Busbey will put on it a modern and large office building.

Yesterday's Police Court.

In the police court yesterday morning John Foster, arraigned for indecency in public, was dismissed by the mayor. James Daugherty and John McCann paid \$5 and costs each for being drunk in public on Sunday. John Warner went to the hill in default of the same fine, and Nellie Smith to jail because she did not have the cash. The charge in each case was the same—Sunday drunk. After court adjourned Mike Roth, an old soldier, was brought in by Officer Croighton, who found him drunk on the street, and Mayor Seabright came back and reopened court, but agreed to let the old man go if he would go back to the soldiers' home from which he came, which he agreed to do.

Seriously Wounded by Accident.

John Kerber, a young man employed in the Elson glass works, and residing on Sixth street, in Martin's Ferry, was accidentally shot with a revolver on Sunday afternoon, and seriously if not dangerously injured.

Kerber was in an unoccupied house near Burlington with several companions. He took out an old twenty-two calibre revolver and began fooling with it. The revolver went off and the ball entered the abdomen a little to the left center. He was conveyed to the residence of John Smith, and Drs. Williams and Blackford were unable to find the ball. The unfortunate young man was brought to Martin's Ferry on the noon train on the Cleveland & Pittsburgh road yesterday and taken to his home.

The Columbia Daily Calendar.

An old friend in a new dress, and an article that has come to be one of the indispensables of an editor's desk, comes to hand in the Columbia Daily Calendar for 1892. The Calendar is in the form of a pad containing 367 leaves, each 5 1/2 by 2 1/2 inches; one for each day of the year; to be removed daily, and one for the entire year. Each slip bears a short paragraph pertaining to cycling or some kindred subject. At the bottom of each leaf is a blank for memoranda. The stand is an entirely new departure, being made of sheet metal finished in ivory black, and is very compact. At the close of the year the stand will be available for another pad. This is the seventh issue of this new well-known Calendar, yet all the matter is fresh and new, and comprises notable events in cycling, opinions of physicians and clergymen, hints about road making, and numerous other topics.

THERE'S NOTHING IN IT.

An Alleged Intention to Looze in the West Denied by A. J. Sweeney & Son—New Machinery.

Saturday's Milwaukee Sentinel contained an article to the effect that Mr. A. J. Sweeney, of the firm of A. J. Sweeney & Son, was in Milwaukee looking out for a site for a factory employing 500 hands, which they expect to establish in the West. Colonel A. J. Sweeney was seen at his office and said there was nothing in the article, and that his firm had no intention of locating in the West.

Colonel Sweeney said that the foundations of the plant at Staunton, Va., were finished, and that the rest of the building would soon be erected. There has been some delay on account of the scarcity of brick, but arrangements for procuring a full supply have been made. The main building is 350 feet long and 100 feet wide, and several railroad tracks run through it. The dimensions stated do not include the blacksmith shop, pattern shop and storage room, the office building, etc. A twenty-ton traveling crane will be one of the features of the establishment, and with its aid a boy will be able to load a twenty-ton casting into a freight car. The plans call for the height of the building to be fifty feet, from the ground to the apex of the roof.

The firm is building two five-ton 40 foot span traveling cranes for use in the new barn of the electric street railway company. This machine will pick up an electric car and set it down again on any one of the tracks running through the barn. Should any repairs on the trucks be required, the body of the car can be lifted off and free access from all sides to the trucks and dynamos be obtained.

IN THE CIRCUIT COURT.

Two Criminal Trials Yesterday—Plans of Galtly Entered—Damage Suit.

In the circuit court yesterday, Judge Paul on the bench, the case of S. W. Calvert, indicted for cutting A. N. Gilbert in Pearson's saloon nearly a year ago, was put on trial to a jury, and occupied the time of the court until about 4 o'clock in the afternoon. The two men are brothers-in-law, and were drinking together in the saloon. The defense was that the cutting was an accident.

After the Calvert case had been given to the jury the case of Francis Adams, the former News reporter indicted for obtaining money under false pretenses, was called, and a jury empaneled. The case was still on trial when the court adjourned until 9 o'clock this morning.

Georgia Frank was arraigned on two indictments for keeping a house of ill fame, and pleading guilty to each, was fined \$20 and costs in each case and sent to jail for one day on each. Charles E. Jones, indicted for keeping a gaming place, also plead guilty, and was fined \$20 and costs on each indictment.

Lee Sheets, by his attorney, Judge J. J. Jacob, yesterday filed in the office of the clerk of the circuit court the preliminary papers in a damage suit against the Ohio River Railroad company, claiming damages in the sum of \$2,500.

THE HUB—ONE-PRICE CLOTHIERS.

A GREAT TRIUMPH!

Although this has been called an off season, on account of the continued warm weather and general complaint of dull business, WE STARTED IN WITH A BOOM, AND HAVE BEEN BOOMING EVER SINCE. We've worked hard to get good things to sell, and to sell them cheaply. More of our success is due to this than soft hands and the thoughtless think. We're making rapid progress and our ambition is to keep on and on until we reach the pitch of excellence and vastness in a merchandizing way beyond the dreaming of the most imaginative. If Providence will permit we'll reach our lofty aim, of that you may rest assured, for there's no such word as fail in our vocabulary. Our purchases are on such a large scale, owing to our phenomenally large and constantly increasing business, that we are often enabled to buy the best goods in the market for less even than the cost of production. This enables us

To Undersell All Competition!

We closely watch our business, have a pretty fair idea of what's going on, and know that we place our merchandise upon our counters at lower figures than any house in the city; we could go beyond, but it's not necessary.

HARD, GRINDING WORK TELLS.

Whatever we do, we mean to do well; we try to do well; we hope to do well. If our function is only that of a tradesman, we mean to enable it by doing it well, and that we put all our spirit and force and brain and brawn into the work is most charmingly and beautifully illustrated by our present matchless stock of
